

DE AQUAEDUCTU URBIS ROMAE

Sextus Iulius Frontinus and the Water of Rome

International Congress on the History of Water Management and Hydraulic Engineering in the Mediterranean Region
Rome, November 10 - 18, 2018

Dear participants,

In approximately one month we will all meet in Rome. I am sending you once more the most important information: in red are the newest messages, the information in black you already know from the second circular. Attached you will find the updated program. There are only changes in the lecture program due to some cancellations.

We will have 34 lectures and eleven poster presentations. Please pay particular attention to the time limits when you prepare your lecture (look below). Due to the very compact program which allows no flexibility, we would need to interrupt the lecture as soon as the time limit expires, making a conclusion impossible.

Everybody should bring his poster to Rome and give it to the registration desk upon check in. We will take care of setting it up for you. Note: the poster size is 80 (wide) x 120 (high) cm.

I have to inform you, that even though the program and scheduled excursions are very tight, we want to show you as much as possible, because the sights you will see are very impressive. It is very important that you follow the exact times in the program even if we sometimes do not have much time for discussions. I will send you out later a pdf-file with information about the sights we will visit, so that you can come well prepared to Rome and enjoy the places we go.

Rome is a big city and the traffic is often very heavy so that we sometimes will go to the excursions by Metro. Every evening we have a reception at one of the many institutes in Rome and often we go there with public transportation. As we must be exactly in time with the beginning of these evenings, we have no time for big dinners which are normally very long in Italy. This is the reason why the dinners, except the gala dinners on Sunday November 11 and Saturday November 17, are not included

in the conference fee. However, there are a lot of excellent Italian fast food stops, especially around our hotel, where you can quickly find very good food. After the receptions at the institutes everybody returns to the hotel autonomously and you can even stop afterwards in a restaurant for dinner if you like.

In some excursions we will have long walks, but as we are normally in town, so anybody can go back to the hotel by Metro or taxi, if the walking effort is too much.

For the very special visits to the aqueduct park of the Banca d'Italia and for the spring of the Aqua Virgo I it is necessary to carry your passport or identification card with you – and with the same document number that you already sent me. These places are not open to the public, therefore there are special security requirements and we have to give the travel documents for the duration of our stay at these places.

GENERAL INFORMATION:

How to reach the Massimo d'Azeglio hotel from Fiumicino Airport

The Massimo d'Azeglio hotel (<http://massimo-dazeglio-rome.hotel-rez.com/index.htm> or <https://www.romehoteldazeglio.it/>) is very close to the Stazione Termini, which you reach very easily by train from the Fiumicino Airport. Follow the train symbol at the airport and you will find ticket machines before you go down the moving staircase. Take a first class ticket to Termini with the Leonardo da Vinci express, which costs 14,- €. Please note that in this train only first class tickets are accepted. If the ticket machines are very busy you will find counter windows before you reach the platforms. The train leaves every half hour and brings you in 22 minutes to the Main railway station in the center of Rome.

At Stazione Termini please take the main exit to the Piazza dei Cinquecento, turn left and cross it from East to West in front of the departures of the busses and you will find the Via Cavour at the first traffic light. Stay on the left side of Via Cavour and you will find the hotel at the corner of the next block.

How to reach the Massimo d'Azeglio hotel from Ciampino Airport

(generally used by Ryanair)

In the exit hall: compare departure of shuttles offered by SIT bus, Terravision, and Schiaffini, and buy ticket here (or, if not possible, at the bus). Then go left to leave the building and go straight ahead to the bus stops (of your chosen company).

Departures are every half hour/related to arrivals. The one-way ticket is about 5-6 €, with open-date return ticket you pay less.

A new alternative is to take public bus (ATAC) 520 to Cinecitta, then Metro A to Termini, all for € 1.50.-). For the short way from Termini to the hotel, see above.

Tickets for metro and bus

We will use public transport at least two times every day from Monday (12.11.) till Friday (16.11.) – altogether 14 trips. Every participant has to buy the tickets in advance (the best is at the airport, although you have to pay the Leonardo express extra). Every participant should decide whether he will buy single tickets or a ticket for several days. Here you find the actual prices of the tickets:

Single ticket = 1,50 €

24 h, approx. 1 day ticket = 7,- €
48 h, approx. 2 days ticket = 12,50 €
72 h, approx. 3 days ticket = 18,- €
7 days ticket = 24,- €

It is absolutely necessary that every participant have enough tickets for these five days in advance. We do not have any time to buy the tickets before we enter the metro – if 75 participants have to handle the ticket machines, the time for the excursion will be over before we start.

Hotel voucher

Each participant (only hotel guests) has to show at the time of checkin a voucher. The travel agency RUEFA will send you the voucher **after they have gotten the complete payment**. So please send your final payment before October 10.

Weather conditions

In November the weather in Rome was in former times very bad and rainy. If you look at the general weather forecast for November the temperatures are between 8° and 17° C and November is the month with the most rain at Rome. But as the climate is changing, the last Novembers were very warm and full of sunshine. But be aware that it can be bad especially at the excursions. Please follow the old wisdom: There is no bad weather but bad clothes.

Thin windbreakers will be necessary at the excursions. The nights are frequently rather cool, so that pullovers are usual outside. In any case it is advisable to take along a raincoat or waterproof windbreaker to all the excursions.

What to Bring Along

1. Water Bottle – in town you will find fountains with drinking water, where you can refill your bottles from time to time
2. Good and waterproofed walking shoes for all excursions.
3. Waterproofed rain/windbreakers along with pullover.
4. Of course: camera, sun block, moisturizer, if possible take your own helmet with you,
5. Adequate clothing for excursions and lectures in the hotel (ties would be nice - for female participants similar appropriate attire will be requested).

Guidelines for the lectures and poster presentations

Please be aware that the **time limit of 30 minutes** for each lecture should include time for questions – that means that the lecture should really not be longer than **20 - 25 minutes**. For poster presentations you can present your poster in a short PowerPoint presentation within 8 minutes.

As we have a tight program schedule, we cannot allow any delays, so lectures will be cut short if the general lecture time range expires.

We therefore suggest to concentrate on the essentials of the lecture and poster and ask you to prepare your talks particularly well in regards to time limits.

Please send me your PowerPoint presentation by October 30 per WeTransfer www.wetransfer.com to gilbert.wiplinger@gmail.com to guarantee a good presentation with no technical difficulties.

I will send you more information, the abstracts of the lectures and posters, a map and description of the way to the institutes where we will have our evening-receptions and detailed material for the excursions as pdf-files later in October.

I'm looking forward to see you soon at Rome.

Best regards

Gilbert Wiplinger
